

RISK INFORMATION

After your visit to The Great Escape we want you to go home tired, exhilarated and with a real sense of achievement. The only way you can do this is to face, and overcome, our challenges. However, they would not be much of a challenge without an element of risk.

We have taken care of the major risks; our instructions are qualified, we constantly check and re-check all equipment and we provide you with safety instructions for all our activities.

However, some real, but minor, risks remain in place. They have the potential to cause a slight injury to anyone who does not recognise and respect them.

As part of our booking process, we ask all participants to confirm that they accept being exposed to these risks when taking part in activities. These include, but are not limited to:

- Falling 30-90 cms from logs, barrels or the Tiger Course obstacles
- Slipping or tripping on uneven rural paths or steps
- Slipping or tripping on natural hazards such as wet grass, slopes, trees roots, loose stones etc
- Slight rope burns from swinging or pulling ropes
- Being exposed to natural hazards posed by insects, weather conditions, trees, pollen and wild animals
- Natural open water features and steep slopes

The following photographs show some of the risks you may face. They are not significant, however you do need to be aware of them:

Uneven and muddy paths

Falling 30-90cm from activities and obstacles

Muddy tracks and slopes

Open Water

If you need further information about the activities and residual risks, please call Mark on 01547 530447
